

# Preventive Maintenance

Timely PM service maximizes equipment productivity

**KOMATSU®**

## Let us keep your equipment in top condition

- All makes, all models
- Komatsu trained and certified technicians service your equipment
- Equipment warranties are backed by expert service and regularly scheduled oil analyses
- Higher trade-in value

Whether you have one machine or fifty, your equipment deserves the same care that Kirby-Smith gives its own rental fleet. That's why we offer Preventive Maintenance services for all machine makes and models. Wherever your machine is located, one of our mobile lube service trucks can reach you.

### Trained technicians

All of our technicians have completed Kirby-Smith's training program to ensure that they service your equipment properly. Maintenance is too important to trust to someone who isn't qualified to spot problem signs during routine service procedures.

### Warranty assurance

With documented oil analysis for your equipment, you'll never risk losing warranty coverage for an equipment problem.

### Payment options

You can pay for individual services as they are completed or choose a 2,000 hour contract. With the contract, you pay a fixed fee, based on actual machine usage.

### After hours service

We can perform Preventive Maintenance services after working hours, once your equipment has finished the day's work to avoid downtime.

## What's included in Preventive Maintenance?

### Inspections at 250, 500, 1,000 and 2,000 Hours\*

- Manufacturer's Maintenance Guide recommendations for the appropriate maintenance interval are followed for each model and serial number
- Labor, fluids, lube and fuel filters
- Oil analysis under Komatsu's KOWA (Komatsu Oil and Wear Analysis) Program determines levels of particulates and various metals, so that potential repairs can be identified before they become critical

### 22 Point Inspection

#### Engine Compartment

- Belts and hoses
- Fuel leaks
- Coolant leaks
- Engine oil leaks
- Air induction system
- Exhaust system
- Charging system and wiring
- Brackets
- Braces and bolts air system

#### Operator's Compartment

- Safety equipment (seat belt, horn, alarms)
- Warning lights and gauges
- Windows and wipers
- Seat and cushion
- Lighting
- And other items

#### Exterior of Machine

- Undercarriage
- Tires
- Wheels
- Suspension
- Winch or ripper
- Cutting edges
- Shanks and teeth
- Blade or bucket mounts (arm)
- Oil or fuel leaks
- And other items

### Environmental compliance

Oil and antifreeze may be considered hazardous waste, which must be properly identified, stored, transported, treated and disposed of under Subtitle C of the federal Resource Conservation Recovery Act (RCRA). Kirby-Smith is careful to avoid liability for improperly disposing of these wastes by assuring disposal only through licensed, authorized hazardous waste service providers.

### Preventive Maintenance contracts

With KOMTRAX, Komatsu's GPS monitoring system, we can schedule your equipment for maintenance service at the recommended intervals. This GPS system provides actual service meter readings, so we can monitor your equipment to determine service needs.
