

Parts and Service Support

For more than 35 years, Kirby-Smith Machinery has been solving your equipment maintenance and repairs problems by providing quick, responsive service. We support your equipment with services that include preventative maintenance, oil sampling, vehicle monitoring, undercarriage maintenance, ground engagement tools, filters, and hoses. We also offer remanufactured engines, transmissions, hydraulic systems, and more.

Kirby-Smith works closely with the manufacturers we represent to develop programs that use the latest technology to monitor your equipment's condition and performance to support fundamental equipment goals – optimize production, minimize total expense, and maximize resale value.

- Reliable Equipment
- Available 24/7
- Responsive Service
- Competitive Prices

Certified Technicians

Kirby-Smith has rigorous training requirements to certify our technicians before they begin servicing your equipment. They undergo extensive technical training on all aspects of equipment operation, including heavy equipment diagnostics, maintenance, and repair. Our technicians have experienced both classroom training and on-the-job training to ensure that they fully understand all machine maintenance and repair issues.

PSSRs (Product Support Sales Representatives)

Kirby-Smith has Product Support Sales Representatives here to serve you. These factory trained representatives are available to visit your job site and offer operator-familiarity assistance. They can also assist you with monitoring idle time on your machines. Find your local PSSR today by visiting www.kirby-smith.com.

Authorized Distributor

Kirby-Smith Machinery, Inc.

| • Heaters | • Wear Edges |
| • Hoist Blocks | • Wire Rope |
| • Hoses | • Zipper Lips |

Crane Inspection and Preventive Maintenance

Kirby-Smith offers crane inspections that satisfy all OSHA and ANSI requirements. With periodic crane inspections, you improve employee safety and avoid unplanned downtime and unexpected breakdowns. Kirby-Smith is certified to conduct annual crane and truck crane inspections.

Kirby-Smith offers a preventive maintenance program that puts the burden of servicing your cranes on us. Just tell us which machines you'd like us to cover, and we'll make sure they're properly serviced on time by a qualified technician.

Services are completed by a factory-trained technician and include approved fluids and filters, oil sample analysis, mobile lube services, technical inspections to identify repair needs, and a comprehensive visual inspection to spot potential problems before they require more costly repairs and cause lost production time. Services available 24/7.

Crane Modernization Upgrades

Kirby-Smith offers several rebuild options for cranes, so you can schedule your machine's downtime at a predetermined cost. We use OEM parts for all of our rebuild options to improve machine performance and to assure maximum component life. Modernization can be a cost-effective alternative to purchasing a new crane by extending the life of your current fleet.

Crane Rapid Response Service

When you need emergency crane parts and service or are facing a crane down situation, the Kirby-Smith Machinery Crane Rapid Response Team is ready to rapidly and efficiently respond to your needs.
